Customer Feeling <i>What is the customer feeling?</i>	Curious and expectant	Confident when data loads correctly	Satisfied when insights are clear

Customer Journey Map

The customer journey for CRICKSTATS illustrates how a cricket fan or analyst interacts with the application stage-by-stage. It captures their actions, touchpoints, thoughts, and feelings as they move from logging in, to exploring player and match data, and finally analyzing dashboards. Each stage highlights process ownership and opportunities for improvement, ensuring the experience remains seamless, accurate, and engaging.
